

COMUNICATO STAMPA

UNIDATA JOINS THE INTERMONTE VALORE ITALIA INDEX

Rome, 2 July 2026 – Unidata S.p.A. (UD.MI), operator of telecommunications, *cloud* and IoT services, listed on the Euronext Milan – STAR Segment, organised and managed by Borsa Italiana S.p.A., announces that it has been selected from among the 100 companies listed on the Borsa Italiana that make up the **Intermonte Valore Italia Index**, which is dedicated to SMEs with a market capitalisation of less than one billion euros and which are not included in the FTSE MIB.

The Index was created with the aim of promoting the universe of listed Italian small and medium-sized enterprises, acting as a meeting point between entrepreneurship, the capital markets and the national economy. It provides a genuine cross-section of the best expertise within the Italian economy, helping to broaden and diversify investment opportunities compared with traditional indices, for both domestic and international investors.

Companies are selected using rigorous technical and financial criteria, designed to ensure adequate levels of liquidity, transparency and investability, including: minimum free float, sound governance standards, analyst coverage, financial sustainability and debt levels, as well as representativeness within the Index itself.

The Index forms part of **PMI2Change**, Banca Generali's innovative project launched on 1 July 2026 at Borsa Italiana's Palazzo Mezzanotte, which aims to support the growth and competitiveness of Italian entrepreneurs by fostering the development of listed domestic SMEs. The project tackles the issue of limited liquidity and undervaluation of listed SMEs, helping to create the best conditions for a more efficient match between capital and businesses.

Renato Brunetti, Chairman and CEO of Unidata, commented: *"Our inclusion in the Intermonte Valore Italia Index confirms the path Unidata has taken and our commitment to creating value sustainably for all stakeholders. We would like to thank Banca Generali and Intermonte for this recognition, which strengthens the Company's credibility in the financial markets and encourages us to continue on our path of development".*

The initiative builds on the expertise of Intermonte, a leading Italian player in the sector with over thirty years' experience in the financial markets – particularly in SME research, sales & trading, market making and investment banking – which has been an integral part of the Banca Generali Group since the start of 2025.

COMUNICATO STAMPA

Building on the Index, Banca Generali, together with Investlinx and Intermonte, has launched a new actively managed, PIR-compliant ETF that will invest primarily in the universe defined by the Index itself. Banca Generali has committed to supporting the launch of the fund with an initial capital inflow of €100 million in the first few months, with a gradual increase in exposure to reach €500 million in the medium term. It is therefore estimated that the initiative could help generate new investment flows of €1–2 million per day, representing over 5% of the Index's free float.

This press release is available from Borsa Italiana, the "Info" storage mechanism (www.info.it) and the company's website investors.unidata.it under Media/Corporate Press Releases.
